Professional Experience

GEP Worldwide, Navi Mumbai

Senior Software Engineer (Jan 2026 – present)

- Delivered **20+ business enhancements and user stories** across enterprise procurement and third-party risk management platforms, ensuring high-quality releases with minimal QC defects and strong stakeholder satisfaction.
- Resolved **100+ production, UAT, and client-reported incidents** while maintaining **95%+ SLA compliance**, leveraging strong debugging and root cause analysis skills to implement sustainable solutions.
- Developed custom JavaScript/Node.js automation utilities and AI-assisted productivity tools that streamlined investigations, data validation, issue remediation, and operational support activities.
- C#, .NET Core, ASP.NET Core, REST APIs, SQL Server, MongoDB, Neo4j, Angular, Camunda BPM, Git, Agile

Software Engineer (Dec 2022 – Dec 2025)

- Delivered **100+ user stories, enhancements, and platform improvements** across enterprise applications supporting Fortune 500 clients including Bank of America, GEICO, ING, and Royal London Group.
- Resolved **650+ incidents, defects, and client-reported issues** across development, UAT, and production environments, contributing significantly to platform stability and operational excellence.
- Played a key role in platform stabilization initiatives, including the **RLG Post Quantum Migration**, while consistently providing production and UAT support and collaborating closely with QA and business stakeholders.

Kamal Corro. Control Services, Rajasthan

Project Engineer (Jan 2019 – Oct 2021)

- Managed end-to-end execution of engineering projects, including planning, scheduling, budgeting, stakeholder coordination, and risk management, ensuring successful delivery within scope, timelines, and budget.
